

Mr. Paul Maglione, PHILIP MORRIS, Lausanne

18th Oct., 1988

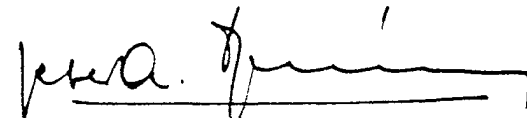

It is understood that P.M. provides such scientist/speaker who must be acceptable to the IFAA. The contents of the lecture shall be mutually agreed upon by Feb. / March 1989, at the latest.

!!!
From our Brussels World Congress we expect a similar or even greater response as we had in Zurich and plan to invest a lot of money. We would appreciate a P.M. contribution of about SFr 70,000.-- / 80,000.-- to help us also to pick up the expenses for attendees coming from underdeveloped countries. Concerning all other conditions, we could copy the agreement signed for the Zurich World Congress last year, if you like.

Dear Paul, I sincerely hope you will accept our proposal, which, I can assure you, wasn't easy to get the approval for. Please, do let me know as soon as possible. Take note, that this office will be closed from the end of October until about early December. I leave for Brazil on 27th Oct. and may be back again on 10th Dec., 1989.

Last not least note the article from SKYWORD, the official publication of the Association of Professional Flight Attendants, Euless, TX (American Airlines) "Flight Attendants and Environmental Tobacco Smoke"! To brighten your day, I send you a photo made during a press conference in Malta at the occasion of the founding of the Air Malta Cabin Crew Union, the youngest IFAA member organisation.

I look forward to your reply and remain
with best regards, yours

Peter A. Trońke
President
