Dear Mr. Hurst:

As we discussed earlier, the Surgeon General is about to release a report which continues his campaign to use environmental tobacco smoke as an excuse to undermine the employer's basic responsibility to provide a safe and healthy environment.

Attached is a policy statement we would like you to approve for release next week. We would also like to send it to the AFL-CIO to try to solicit their support.

We really would appreciate your help in getting your Union's sign-off on this statement today.

Thank you for your help.

Fraternally,

Jim Savarese

Jim,
I need to get your President's OK
on this. Will call you this afternoon.

Jim
