MEMORANDUM

TO: Sam Chilcote
Bob Lewis

FROM: Susan Stuntz *SMV*

Attached for your information is a copy of the ad that the Tobacco Growers' Information Committee has purchased for the Raleigh News & Observer for Tuesday, October 12 -- the day President Clinton is scheduled to visit Chapel Hill.

We'll work with Walter Woodson and the TGIC to help it garner press attention to the ad in advance of the President's visit.

Mr. President:

**Southern voters put you first
on Super Tuesday.**

**Don't put Southern workers last
with your tobacco tax.**

*Proposed
federal tobacco
taxes unfairly
target the South.
3.5 times as many jobs
would be lost in the South
as in the rest of the U.S.
Please don't hurt
Southern families with
higher excise taxes
on tobacco.*

Dear Mr. President:

Southern working men and women stood by you when you needed our help in the Super Tuesday Democratic presidential primaries -- and we put you first.

Now, we need your help.

Your proposed \$.75 to \$1.00 a pack cigarette tax will cost -- almost immediately -- tens of thousands of Southern workers their jobs -- a job loss impact 3 1/2 times heavier than the rest of the country.

These jobs are more than just paychecks. Tens of thousands of families in the South will lose their pride, their independence and their heritage, and the South will lose a powerful economic engine of growth and progress.

The fact is, there are other, better ways to fund National Health Care. Eliminate waste in government spending, crack down on excess profits in the health care industry itself. Cut waste and fraud, not Southern jobs.

Mr. President, we are the people about whom you so often spoke in those early primaries -- the people who do the work, play by the rules and pay the taxes -- please stand by us as we stood up for you.
