MEMORANDUM

August 11, 1987

To: Samuel D. Chilcote, Jr.

From: Walter N. Woodson *W*

This week our entire lobbyist corps, as well as the executive directors of TI-supported tobacco wholesaler associations, will receive federal information packets on the FET and airline ban issues. A sample mailing is attached.

Included in each packet are fact sheets, congressional testimony and other documents explaining our views on the two issues, as well as steps to take during the August recess. Through NTC's Bill Balden and other tobacco-state contacts, we are also working to bolster support from these traditional allies.

On a related matter, the airline smoking ban TAN alert goes out this week to nearly 13,000 activists around the country. A sample is attached.

We will keep you advised as we progress in these efforts.
