Dear Governor Gardner:

We are writing to ask for your favorable consideration of ESHB-2274, an act relating to employee privacy.

This legislation provides that employees' lawful activities during non-working hours will remain private and not subject to employer scrutiny. In today's society, an employee's right to happiness must embrace the right to pursue individual lifestyles. We believe this legislation provides such flexibility without reducing in any way an employer's right to take appropriate action for unlawful activities.

Thank you in advance for your support on ESHB-2274.

Sincerely,

THE WASHINGTON STATE COUNCIL OF FIRE FIGHTERS
