MEMORANDUM

TO: Executive Committee

FR: Samuel D. Chilcote, Jr.

---

The upcoming Legislative Conference in Palm Springs provides us with an excellent opportunity to brief and consult with key Members of Congress on ETS and the public smoking issue.

That being the case, we have decided to begin the conference one day early to accommodate a special session featuring two of our experts, Dr. Larry Holcomb and Gray Roberston, in a roundtable discussion with our Congressional guests on how we might deal more effectively in this area.

Please note the addition of Tuesday, January 12 to the conference.
