THE POWER OF RELIGION

The Terrorists Who Long for Peace *Mark Juergensmeyer* 1

While secular terrorists often seek mundane goals such as power and legitimacy, religious terrorists see themselves as fighting a battle between good and evil, in which violence is used in order to achieve ultimate peace.

International Society and Its Islamic Malcontents *Sohail H. Hashmi* 13

Contrary to the Western perception, the recent "Islamic revival" is defensive rather than offensive in nature. Rather than a challenge to the international community, it is an attempt by Muslim intellectuals and political activists to reclaim an Islamic civilization that they believe has gone astray.

**Vodou and Political Reform in Haiti:
Some Lessons for the International Community** *John Merrill* 31

Throughout Haiti's turbulent history, political leaders, soldiers, and Christian clergy alike have fought against or ignored Vodou. But Vodou, the religion of the Haitian people, defines Haitian social structure. It may hold the key to lasting political reform.

Religion and Conflict Resolution *Douglas M. Johnston* 53

Religion is often seen as a contributing factor to many conflicts today, from Bosnia to Rwanda to Sri Lanka. Yet the central tenets of Hinduism, Buddhism, Christianity, and Islam may hold the keys to abating and resolving even the most bitter and violent disputes.

**Religion and the Global Media: Improving
a Strained Relationship** *Nancy Nielsen* 63

Religious leaders and the global media elite make an unlikely couple, but through increased understanding and respect they may be able to work together to stem conflicts.

Interview with J. Bryan Hehir 75

People are willing to live and die for religious visions, and they mobilize nations in their quests. Religion is also a unifying force, providing pathways to understanding across cultural chasms. J. Bryan Hehir discusses the relationship between religion, governance, and people.

ISSUES & POLICY

- The Cambodian Elections and the Benefits of Legitimacy** *Nhan T. Vu* 81

Years of war left Cambodia with a culture of endemic political violence. Elections may have broken that cycle and reempowered the people.

- Putting the Cart Before the Horse: Assessing Opportunities for Regional Integration in Latin America and the Caribbean** *Jason R. Wolff* 103

Efforts to achieve formal economic integration in Latin America and the Caribbean have failed in the past. The current climate of unilateral trade liberalization and deregulation offers better hope for success.

- The Cuban Democracy Act of 1992: The International Implications** *Joanna R. Cameron* 137

Now that the original cause for the Cuban embargo has ended, the United States must acknowledge the costs of the embargo and repeal the Cuban Democracy Act.

- Beyond 1995: Negotiating a New United Nations Through Article 109** *Richard J. Ponzio* 149

The United Nations was created to manage a world that no longer exists. The U.N. Charter should be reviewed and changed to reflect contemporary realities.

BOOK REVIEWS

- Review Essay: Taking Account of Accountability** *Ellen Lutz* 157
