For the Griscom briefing, I would recommend the following materials be pulled together as handouts as examples of what we've done. I'd appreciate your help in compiling this stuff into two separate packages (perhaps using the accordion files that have flaps that allow them to close) -- one for taxes; one for public smoking.

Make sure you don't give me anything that's your last copy. He may want to take this stuff back with him.

Excise Taxes/Social Costs

A sampling of CTJ material, including a McIntyre op-ed, a CTJ officer's quote in some tax story (preferably on a straight tax issue rather than some CTJ-generated study), then two CTJ reports, one on federal tax issues and a second on state issues.

A similar sampling of EPI material, possibly including the study that has most direct relation to our issues, along with the EPI response to the CBO report on expenditures vs. income as a measure of regressivity.

The AAM excise tax study and general information brochure. Also, perhaps, a copy of one of the letters to a Member of Congress and one to a state legislator.

The CLUW excise tax study and brochure, along with the letter to Members of Congress.

The CHN federal tax briefing package. And the federal tax ad.

Resolutions from the AFL-CIO (the July 31 is the best), NCSC and any other group that has an anti-excise tax resolution (LCLAA or APRI?).

Since we don't have studies as yet, do we have anything else on taxes from LCLAA, APRI or NCSC?

The LMC tax briefing materials we sent out to the folks in the states. Also, a sampling of letters to Members of Congress from our labor allies in the states, including Iowa Citizen Action and/or AFL-CIO, NJ Citizen Action, Illinois Rainbow, Wisconsin Action Council and Minnesota CTJ, Texas CHN, and Weiland's various Michigan allies.

Some relevant CART study, if one exists.

The National Chamber Foundation study on taxes, plus the briefing papers that accompanied it.

New Jersey Citizen Action tax study and brochure, plus clips.

NEMI news -- this year's copies, and any other NEMI stuff you think might be relevant. Perhaps a couple of Frank Powell letters or testimonies.

the various and sundry resolutions on smoking in the workplace, IAQ and discrimination we've been able to get. (national AFL as well as state stuff)

the NAS study on IAQ that Jim Golden worked on. Also, a sheet metal submission to EPA on its earlier IAQ fact sheet (containing the now-famous line that NEMI can make ventilation systems that'll suck the carpets right off the floors).

is there any paper from any of the arbitrations we've assisted with?

Under miscellany:

Samples of results from ACVA/HBI and Truth Squad/McGill/scientist media tours. Also, any op-eds from same.

The National Chamber Foundation submission to EPA on risk assessment.

Is there something from BCIA we can show him? Is there anything else I've forgotten? If so, feel free to add it and, on the public smoking issue, check with Brennan to see if there's more she wants to add.

Thanks for your help. Leave the stuff on one of the chairs in my office and I'll go through it first thing Thursday morning.
