5. Responded to several requests for further information from business agents in attendance at Mr. Donohue's presentation.

Susan, two other items need your attention:

1. I need at least three copies of the "short" version of your videotape.
2. I need more copies of studies done by ACVA-Atlantic.

I am starting to get requests for more information from people, and I need additional material so that I can respond adequately.
