

The Hermit by Adam Harrahan

The mind is the reason, spirit and psyche
Demons hold keys to senses inside me

The Great Hermes Book of Thoth

taught me that energy created is never lost

Knowledge for all Ages

From time of pyramids to Satellites with lasers

Causing forest fires

real truth beyond the bells of church spires

causes echoes for miles to all generations

for all those with patience

Search for truth

To All Nations even the Chinese recluse

To the Switzerland SERN particle beam burns

Holes in the fabric of reality

like a Demon released from inside me

the beast to plague Society

until these interdimensional creatures

beseech us to teach us wisdom

for All Ages

Once again hercs witches, Sorcerers, and Seers
