
Recent Publications by the Fletcher Community

The Fletcher School, established in 1933, is the oldest school in the United States devoted exclusively to the graduate study of international affairs. The Fletcher School aims to provide high quality, interdisciplinary instruction and research in the fields of law, diplomacy, economics, history, politics, business, and regional studies. In an effort to provide a wider audience for the innovative research done by The Fletcher School's faculty, students, and recent graduates, The Fletcher Forum publishes a list of recent publications by the Fletcher community in each issue.

STEVEN BLOCK, Associate Professor of International Economics at The Fletcher School, wrote "Nutrition Knowledge, Maternal Schooling, and the Child Micronutrient Status," *Oxford Economic Papers*, 59 (April 2007).

ELIZABETH L. CHALECKI, Ph.D. candidate at the Fletcher School, wrote, "He Who Would Rule: Climate Change in the Arctic and its Implications for U.S. National Security," *Journal for Public and International Affairs* 18 (Spring 2007).
