Dear Jim/ Leslie:

Below is my report for July, 1993:

Fair Taxes: I presented the fair tax proposal to the I.A.M. & A.W. Local 2676, Coral Springs Florida. They have a membership of app. eighty five, fifteen members were at the meeting on Tuesday July 7, 1993.

I presented the Fair Tax Proposal along with the implications of taxes with regard to health care, with Tom Donahue JR. To the Orlando Fl AFL-CIO Central Labor Council. The meeting took place on July 14, 1993, there were about Forty five delegates in attendance.

I presented the Fair tax proposal to the Machinist Local 2508 Orlando Florida, on July 6, 1993. In attendance at the meeting were about forty members, who expressed a great deal of interest about regressive taxes, and what we can do about progressive taxes.

We have sent from N.E.M.I., a package regarding Safe Indoor Air Quality, to the Broward County School System. They have experienced a tremendous outbreak Of "Sick Building" complaints throughout Broward County. I will be following up on the issue with the coordinator of the school system that is responsible.

We are organizing a meeting with the people in Tallahassee, who are responsible for implementing corrections for the sick building problems in Florida. We want to re-submit the Legislation to study the problem in Florida.

I continue to work with the Florida AFL-CIO and the support groups affiliated, to inform them of our issues.

Sincerely,

  
Frank C. Ortis
