Dear House Majority Member:

Opportunities Industrialization Centers of America (OIC) joins with countless numbers of citizens who fear excise tax reforms that will hurt the poor and the lower and middle-middle class.

The analogy of taking pennies from widows and orphans to pay off a \$10,000 gambling debt is not at all far from the mark.

We urge you as a member of the Budget Committee to support the view of Chairman Rostenkowski that a low regressive tax is not the best way to reduce the deficit. Also we would urge you to consider the Hoover Institution position that excise taxes should be left to the states.

We have OIC's in your state which would be adversely impacted by the excise tax reform. Kindly do what you can to help!

Thank you sincerely,
