Dear Jim:

This is to acknowledge and thank you for the copy of your letter to Curt on December 28 regarding John Banzhaf's recent announcement of the plan to inject the smoking on aircraft issue in the stockholders meetings of the 21 national airlines.

We have followed this matter closely and as you know, Susan Stuntz of The Institute covered the press conference which occurred on December 8. Not knowing whether you have seen the copy of Susan's report on the conference, I am enclosing one for your information.

As we have known for many years, Banzhaf will stop at nothing in order to harass smokers and those who supply services to smokers, as well as the general public. This is another example of his ingenuity and must be watched very closely. For your additional information, we have been in contact with the ATA on this matter -- even before Banzhaf held his news conference.

With all good wishes, I am

Sincerely yours,

Horace R. Kornegay

Enclosure
