Fairfax, VA 22030

Dear Gray:

We finally made telephone contact with the Service Employees regarding the New England indoor air quality project. The next step, I think, is for you to contact the New England group directly, to set up dates for the building inspections they've asked for.

In Maine, where they've asked ACVA to inspect buildings in Augusta, Caribou and Portland, your contact is Phil Merrill (207/622-3151). In New Hampshire, where both buildings are in Concord, your contact is Dennis Martino (603/271-3411).

Vermont has joined the coalition, although there's no discussion of additional building studies for the moment.

I've told SEIU that your current timetable suggests that buildings could be done sometime in September. A reminder that all bills for this project go to the Tobacco Industry Labor Management Committee.

Thanks for your help. Let me know if you've questions.

Cordially,

Susan
