MEMORANDUM

TO: RICK SULLIVAN  
FROM: FRED PANZER  
SUBJECT: INDIGENT CARE WHITE PAPER

As discussed, I'm looking for two to three pages of cogent commentary that our lobbyists can use with state legislators for talking points and as leave behind paper.

The enclosed article covers the subject. But we'd want something that knocks down several of the more objectionable funding alternatives, especially sales and excise tax increases in the body -- and ends with preferred alternatives such as board based general revenue levies.

The need for this paper is, as always, almost immediate. Later on, we can do slicker, third-party versions.

Enjoy Boise!
