**An Interview with John R. Galvin** 37

The former commander of NATO discusses his thoughts on the changing role of NATO in the post-Cold War period.

**Sovereignty Versus the Chimera of Armed Humanitarian Intervention** *Robert M. Cassidy* 47

The case of Somalia illustrates that humanitarian intervention is often laced with political motives, and a more objective criteria is needed for future collaborative U.N. actions.

**International Organized Crime: The Silent Threat to Sovereignty** *William J. Olson* 65

The international community must join forces to combat organized crime, which has taken advantage of growing international trade and enhanced technology to become a critical challenge for sovereign governments.

**The Emerging Global Information Infrastructure and National Security** *Greg Rattray* 81

The information age has created unparalleled access to sensitive information and the United States should take the lead in addressing the resulting threat to international security.

## ISSUES & POLICY

- The Law of Noncombatant Immunity and the Targeting of National Power Electrical Power Systems** *J.W. Crawford, III* 101  
The targeting of electric power systems in times of war has disproportionately harmful effects on civilians and should be scrutinized under the recognized rules of conflict.
- War and the Global Opium Supply** *K.I. Douglas* 121  
Armed conflict in Afghanistan and Myanmar has contributed heavily to the rise in international drug trafficking and the lessons can be drawn for the prevention of further escalation.
- The Problems and Promises of Japan's Economic-Growth-Led Foreign Policy in Perspective** *Christian Hougen* 133  
Japan's post-World War II economic strategy has focused predominantly on international trade, but the time has come to change that policy into a more active role in world affairs.
