Covid19 Poem
Instructor: LARA Mularte
Poetry class
(9-3-20)

"Covid19 Pandemic"

"Covid19" comes and goes AS it PLEASES,
To whom, young and old alike, it never ceases.
Today, medicine and Technology fight hard,
Making Progress to deal "Covid19" A death CARD.
"Covid19" CAUSING just a tremendous amount of Pain,
It has taken too many lives, like drops of Acid Rain.
The family and circle of friends feel Sad,
Everyday is a New Struggle, gaining Back what one had.
The Reality of Death expresses more clarity,
To awake and be miraculously healed is a RARITY.
Go deeper than the Patient and treat the Source,
Let's Uproot this Beast and destroy its wicked Course.
It's encouraging to smile and remain optimistic,
Opposed to giving up and being pessimistic.
Love each other and the freedom of Peace,
Because our lives and time are valued for each.
We must continue to fight and move forward,
All United to bring about change as one cord.
Go away "Covid19", you are not welcome here,
All you are good for is bringing weakness and fear.
It has been a challenge, however you will be overcome,
Let loose, the Angels from heaven to play the victorious drum
