Dear Mike:

Enclosed is a revised economic impact study based on Draft #3 of the proposed Public Health Council smoking restriction regulations.

Could you please review this with Mr. Cleary and let me know by Thursday this week if you recommend any changes to the study.

Assuming all revisions are completed by Friday at the latest, please have this study submitted directly to the Public Health Council for inclusion in the public record at its hearing on December 15 in New York City.

Do not hesitate to call me should you have any questions about this matter. I would appreciate a copy of the AFL-CIO transmittal letter to the Public Health Council.

Thank you for your assistance.

Sincerely,

*Thanks!* *Bill*
